A new kind of support from a different kind of takaful operator

We know that traditionally, takaful coverage has been good at supporting you financially. But with anything beyond that, the support usually stops.

Which is why at FWD Takaful, we want to give you the kind of help you need, but might not expect from a takaful operator.

That's why we designed FWD Care Recovery Programme, a range of support services curated to meet your every need.

Be it emotional support, or practical help, FWD Care Recovery Programme starts with us listening to you to understand what you need and how we can support you.

Because we think takaful coverage should be about so much more than paying a claim.

How you'll experience the FWD Care Recovery Programme

Between 12 January 2022 to 31 December 2024, if your claim is approved, the FWD Care Recovery Programme will be made available to you.

Make a claim

The moment the eligible claim is approved, we'll get in touch with you to start the process.

Provide your consent

As this programme is meant to benefit you, we'll first require you to provide your consent.

Hear from your nurse

The dedicated support nurse will get in touch with the eligible customers who have provided their consent.

Get the support you need

Your dedicated nurse will be a companion and guide for you and your loved ones. Beyond that, your nurse will discuss the support services that best suit you/your family needs and connect you with them.

Programme completion

The FWD Care Recovery Programme lasts for 6 months, where you will have access to your nurse and all support services, up to the MYR2,000.00 limit, at no cost.

Remember, you'll have full access to your recovery nurse for the whole 6 months, even if you use up the full value of services before then. Because if you're in need, we think you deserve the best possible care.
